

TREASURERS REPORT

2022 - 2023

It has been another busy year improving WF8 Scout Group premises with concrete bases and the outside building now virtually completed making a big difference for storage of equipment etc.

Cubs/Squirrels meeting spending shows lower this year of around £200 than it should be as we are still waiting for their authorisation for payments, so unfortunately these will have to be carried forward which will increase their debit figures in next year's financial year. Squirrels is now up and running and a new account has been organised for them.

Also Membership payments have greatly improved with fewer missed payments, now stricter control has been implemented.

Our balances, although down, are still very healthy. In this year's accounts we haven't benefited as much with Government and Council grants now that covid restrictions have subsided and that we are nearly back to normal pre-covid.

Over the past two or three years, the Group has grown strength to strength with facilities and premises greatly improved for all to enjoy.
